

Coolhealthonline.at

One of millions of these "Pharmacy Express" sites, often with .at domains, which send out half the spam on the internet it seems. They have hundreds of domains but all use the same website template with the "Pharmacy Express" logo. Do not use them under any circumstances, you will not receive anything except credit card fraud and a lot of spam. Do not use anything with a "Pharmacy Express" logo, or even any site with an .at domain.
